Which structures are the most suited to invest in Vietnam companies and joint ventures from a tax perspective? **Edwin Vanderbruggen**, Head of DFDL Indochina Tax Practice will explain in a practical manner how to optimize taxes for your investment structure. He touches upon the following points:

- Regional tax planning for investment projects: side by side comparison of holding companies;
- New developments in the Vietnamese taxation of gains on shares;
- How to finance your acquisition tax efficiently?
- Audit practices by the tax authorities in relation to international transfer of shares.

**Edwin A. Vanderbruggen** has 17 years experience as a tax lawyer and academic. He advises multinational enterprises, governmental departments and international organizations in the field of international taxation, tax planning and on the public international law of trade & investment.
