Salary Surveys and Labour Trends in Vietnam 2010/2011

New World Hotel Saigon, Thursday 4th November 2010

Good Human Resources (HR) planning and management plays a critical role in making your company attractive to promising talents. With the Vietnamese economy in “recovery” mode, foreign companies are finding it increasingly more difficult to hire and keep good staff. At the same time, planning and determining salaries is becoming more difficult, as compensation schemes still differ widely throughout Vietnam.

Join our HR Sector Committee business luncheon to learn more about the current market and compensation trends in the HR market in Vietnam in 2010/2011.
