*Seminar on Investing in Vietnam*

25 May, 2011 (Wednesday), FHKI Exhibition Hall

Vietnam has sustained growth rates averaging 6% for the last 20 years since its re-integration into the world market and is a new market place for Hong Kong products acclaimed for quality and innovation. The country provides 50 million strong labour force (aged under 40-year old) with USD120/month all-in average starting salary which could be the new prime mover for Hong Kong enterprises in overcoming current hardship of increasing costs and adverse currency exchange. The country also offers a highly potential domestic market of 87 million population, and another 450 million in Southeast Asia (under ASEAN FTA); as well as preferential treatment and low tariffs from Vietnam into USA, Japan and Europe. It is the way to circumvent the hardships your enterprise faces NOW.

In view of the huge potential of Vietnam market, Sembcorp Industries is currently developing well-placed industrial townships to quick-start you with reliable, proven and cost-effective 1-stop solution in Vietnam. On the back of strong investment flows into Vietnam, our highly successful Vietnam Singapore Industrial Park (VSIP) has expanded from the southern economic zone (Binh Duong's Thuan An and Ben Cat districts) to the northern economic zones of Vietnam (Bac Ninh and Hai Phong City), working on a substantial land bank of 4,845 hectares to develop world class bases for your business.

A seminar on investing in Vietnam will be held on 25 May (Wed) to introduce the market to Hong Kong enterprises. Details as follows-
